## COMPANY

**MagForce AG** is a pioneer in the area of nanotechnology-based cancer treatment. It is the first company in the world to receive European approval for a medical product using nanoparticles. The developed NanoTherm® Therapy allows for planned treatment of solid tumors through heating with superparamagnetic nanoparticles. NanoTherm®, NanoPlan®, and NanoActivator® are components of the therapy and have received EU-wide certification (CE mark) as medical devices for the treatment of brain tumors. MagForce AG is listed on Frankfurt Stock Exchange and has subsidiaries in Germany and the USA.
